# PC Games

## 30 years of pc games competence

Over 30 years of passion for gaming!

Germany's first ever magazine dedicated exclusively to games offers clear and concise news on every subject under the PC gaming sun, with background reports and expert advice on new purchases.

## More than just PC games

At pcgames.de, the editorial team provides up-to-the-minute news, videos and screenshots as well as critical test reports, thoroughly researched preview articles, exclusive specials and practical tips on all aspects of PC and console games as well as PC hardware. In addition, pcgames.de also caters to readers' interest in movies and TV series. Additionally, PC Games is also active on YouTube, TikTok, and everywhere else on the internet where gaming and entertainment are a topic. The experts from the editorial team are ready to engage with the community, sharing their expertise and putting a face to their knowledge.

# PCGH

## The magazine for IT and technology enthusiasts

PCGH is the authority for IT and technology enthusiasts. The magazine sheds light on the complex world of hardware from the perspective of experienced PC users. Whether it's graphics card tests, processor buying guides or tuning tips, everything revolves around the following important questions: Which PC component offers the best performance for the respective budget? How can one extract even more performance from their PC? The knowledgeable editorial team provides answers to these questions every month.

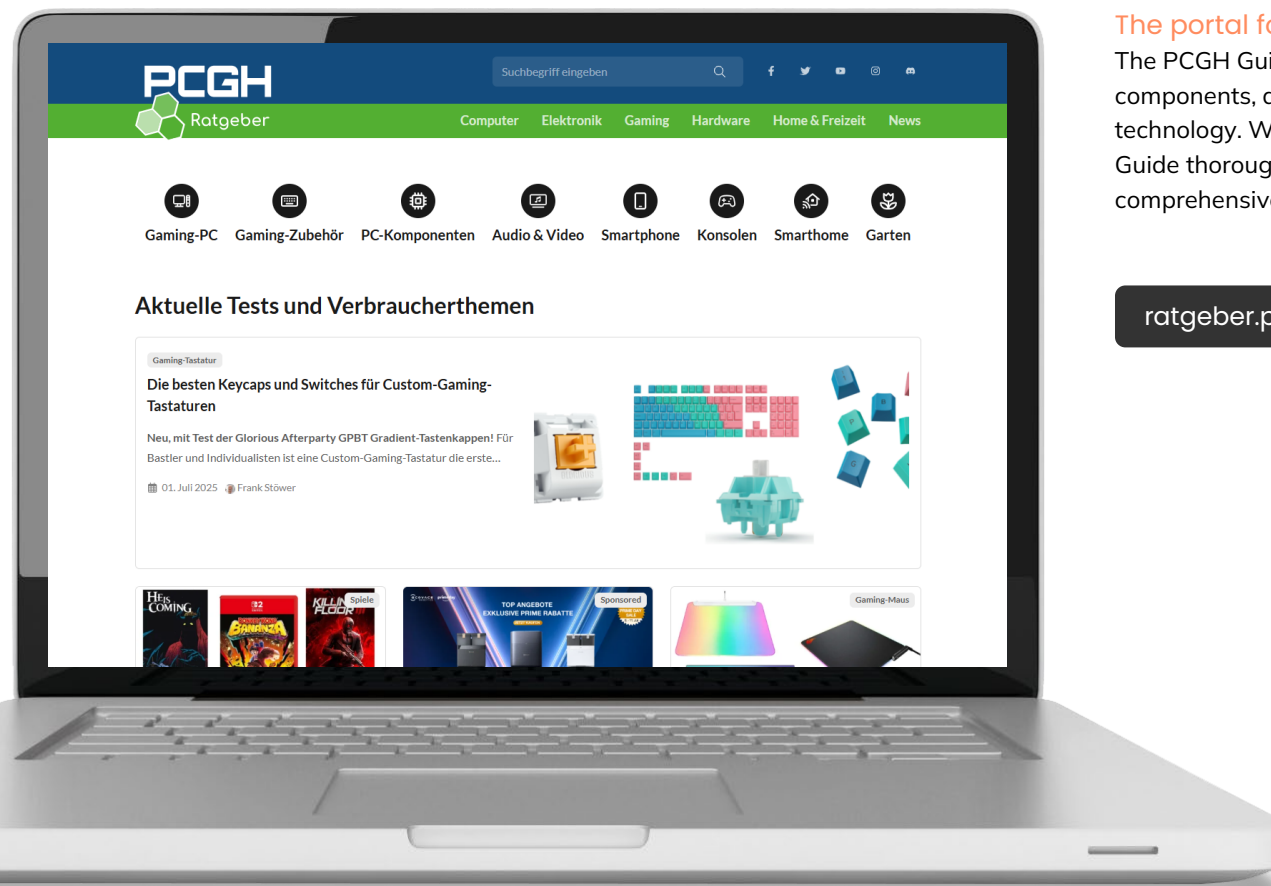

## The reference for IT and technology

At PCGH's online presence, everything revolves around IT hardware for gamers. Not only are classic IT topics such as graphics cards, processors, or motherboards illuminated, but also important technical milestones and exciting developments in gaming technology. In the PCGH Extreme community, PCGH readers discuss new developments in the PC market.

[www.pcgh.de](http://www.pcgh.de)

# PCGH-Ratgeber

The portal for technology, PC components, and gaming.

The PCGH Guide offers plenty of tests and buying advice in the areas of technology, PC components, and gaming for those who need assistance in making decisions when purchasing technology. Whether it's smart lighting or motherboards, robotic lawnmowers or gaming desks, the Guide thoroughly researches the topics, conducts personal and unbiased tests, and provides a comprehensive overview from all angles.

# PC Games MMORE & buffed.de

## Indispensable know WoW and more ...

PC Games MMORE is the ultimate compendium for all World of Warcraft and MMO fans, offering comprehensive information for those who want to know more about all the authorities, skills, quests and professions. Whether complete beginners or role-playing experts.

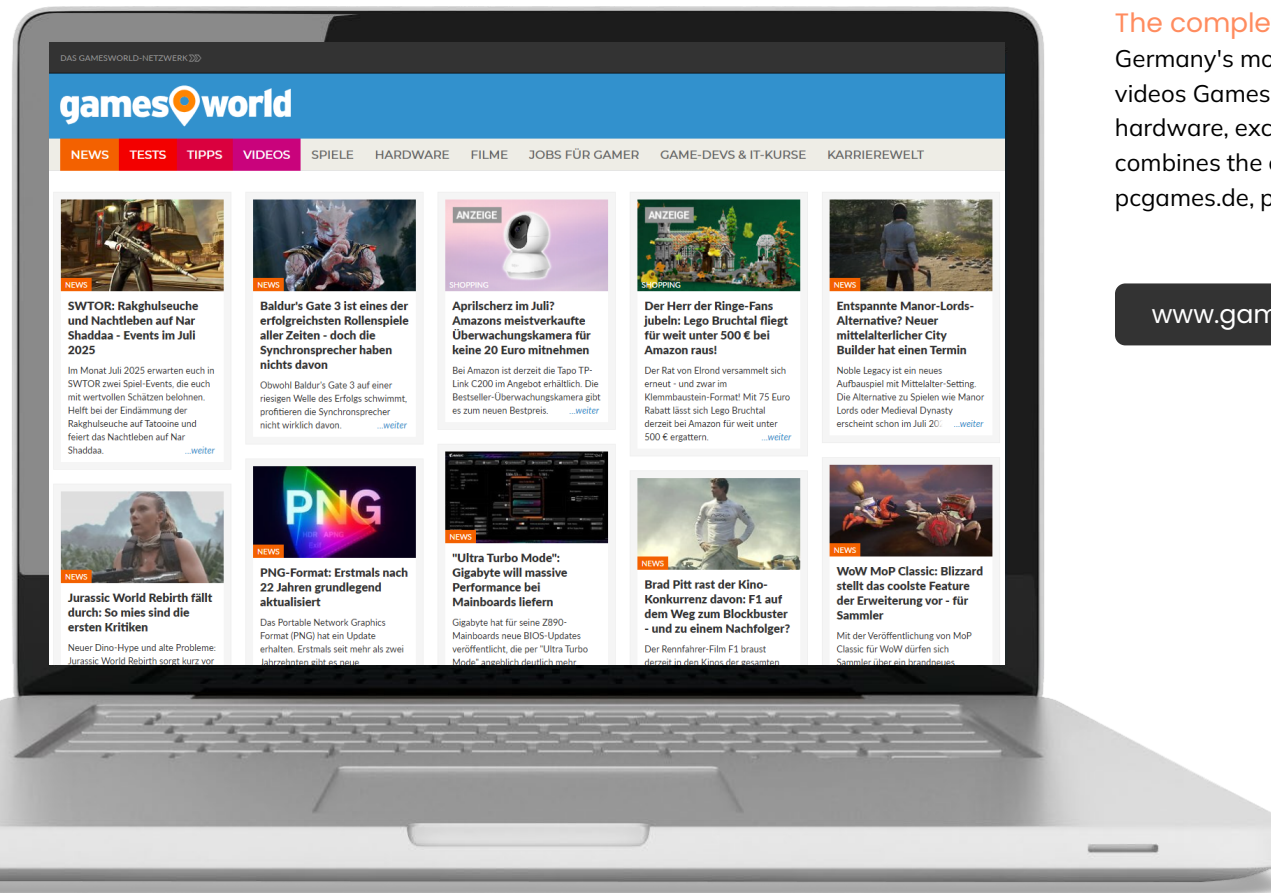

## The portal for online games, movies, series, and nerd stuff

More and more people are flocking to online gaming worlds like World of Warcraft, New World, and Final Fantasy XIV, playing mobile games like Pokémon Go, and watching series like One Piece, The Last of Us, and Doctor Who. These are exactly the topics that the buffed editorial team has been reporting on with passion for years. Whether it's the latest news, exclusive reports, comprehensive guides, or simply the newest rumors from the world of gaming, movies and TV series - fans stay up to date on buffed.de.

[www.buffed.de](http://www.buffed.de)

# gamesworld.de

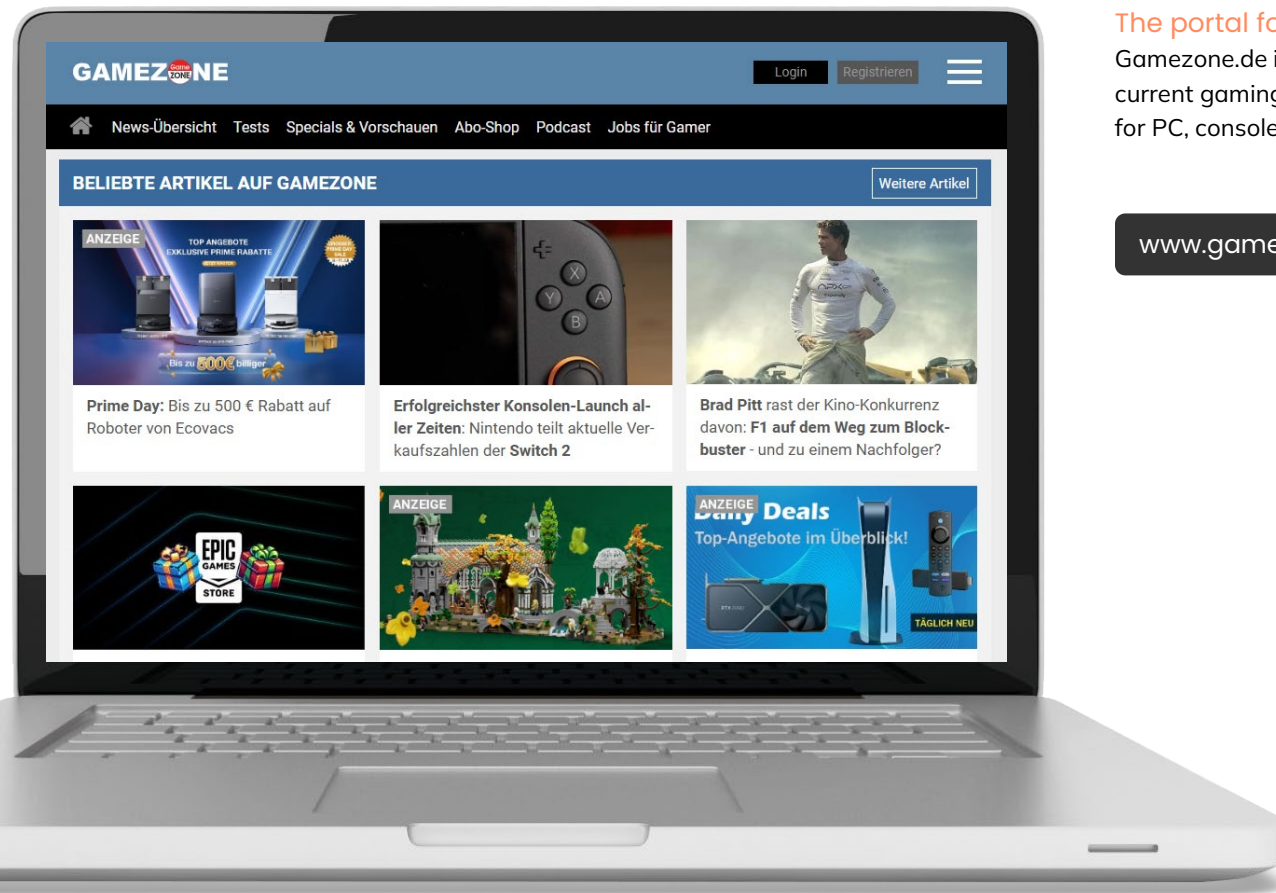

## The complete world of gaming

Germany's most far-reaching home for core gamers: As a central source of news, reviews, tips and videos Gamesworld.de provides a complete overview: The entire world of games, the best gaming hardware, exciting technology, the most important movies - all on one site. Gamesworld.de combines the contents of all sites of the Gamesworld.de network and offers direct access to pcgames.de, pcgh.de, buffed.de, gamesaktuell.de, gamezone.de and videogameszone.de.

[www.gamesworld.de](http://www.gamesworld.de)

# gamezone.de

## The portal for everything about computer and video games

Gamezone.de is an editorially supervised portal for computer and video games. In addition to current gaming news and specials, the site provides one of the largest German review databases for PC, console, and mobile games.

[www.gamezone.de](http://www.gamezone.de)

# N-ZONE

## N-Zone: Germany's big Nintendo magazine

N as in Nintendo, N as in N-ZONE. Germany's longest-serving Nintendo magazine exclusively covers the vast cosmos of Nintendo. N-ZONE provides the ever-growing fan base of Nintendo consoles with exciting news, exclusive reports, reviews, previews, detailed retro specials, tips and tricks, and a strong sense of community every month.

# play<sup>5</sup>

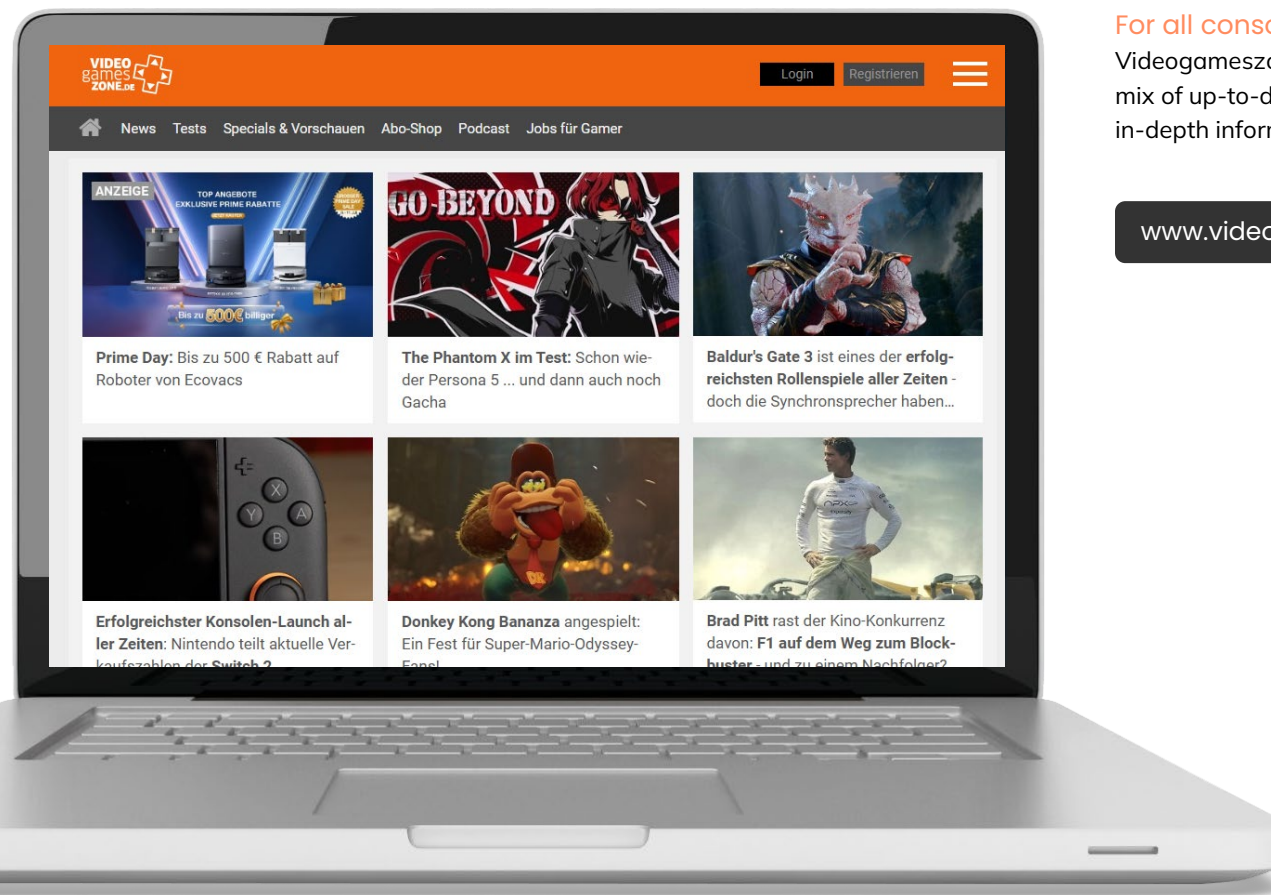

## play<sup>5</sup>: Germany's top-selling PlayStation magazine

play<sup>5</sup> is combining the worlds of PlayStation 5, PlayStation 4, Pro, and PlayStation VR 2. Alongside exciting previews of the most important titles and entertaining reports, the focus is primarily on providing optimal purchasing advice through meaningful tests, with a touch of humor thrown in as well. Each issue includes a DVD featuring editorially produced SD and HD videos in the best picture and sound quality.

# videogameszone.de

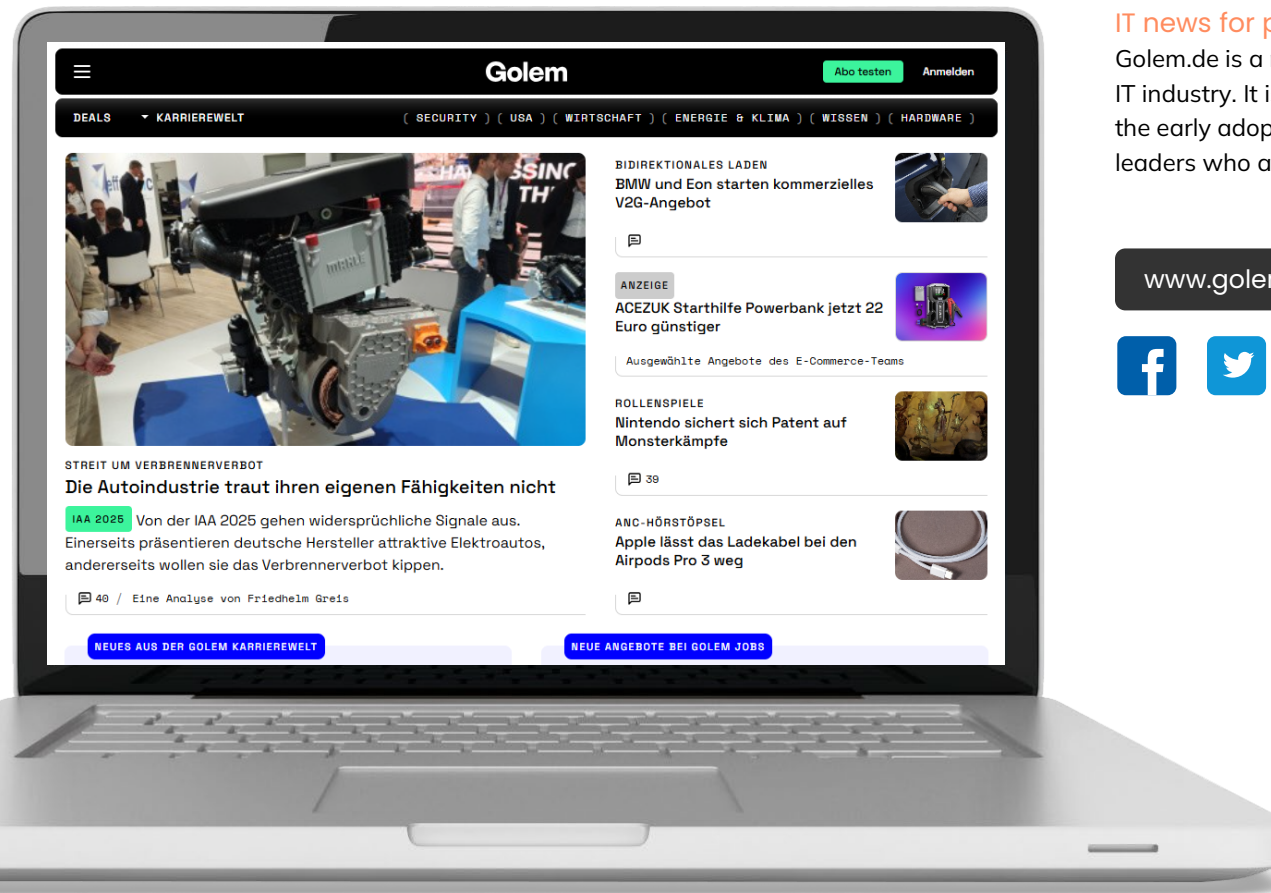

## For all console fans

Videogameszone.de covers all stationary and mobile console systems. The editorial mix of up-to-date news, critical tests, comprehensive solutions and cheats provide in-depth information for console players about their hobby.

[www.videogameszone.de](http://www.videogameszone.de)

# golem.de

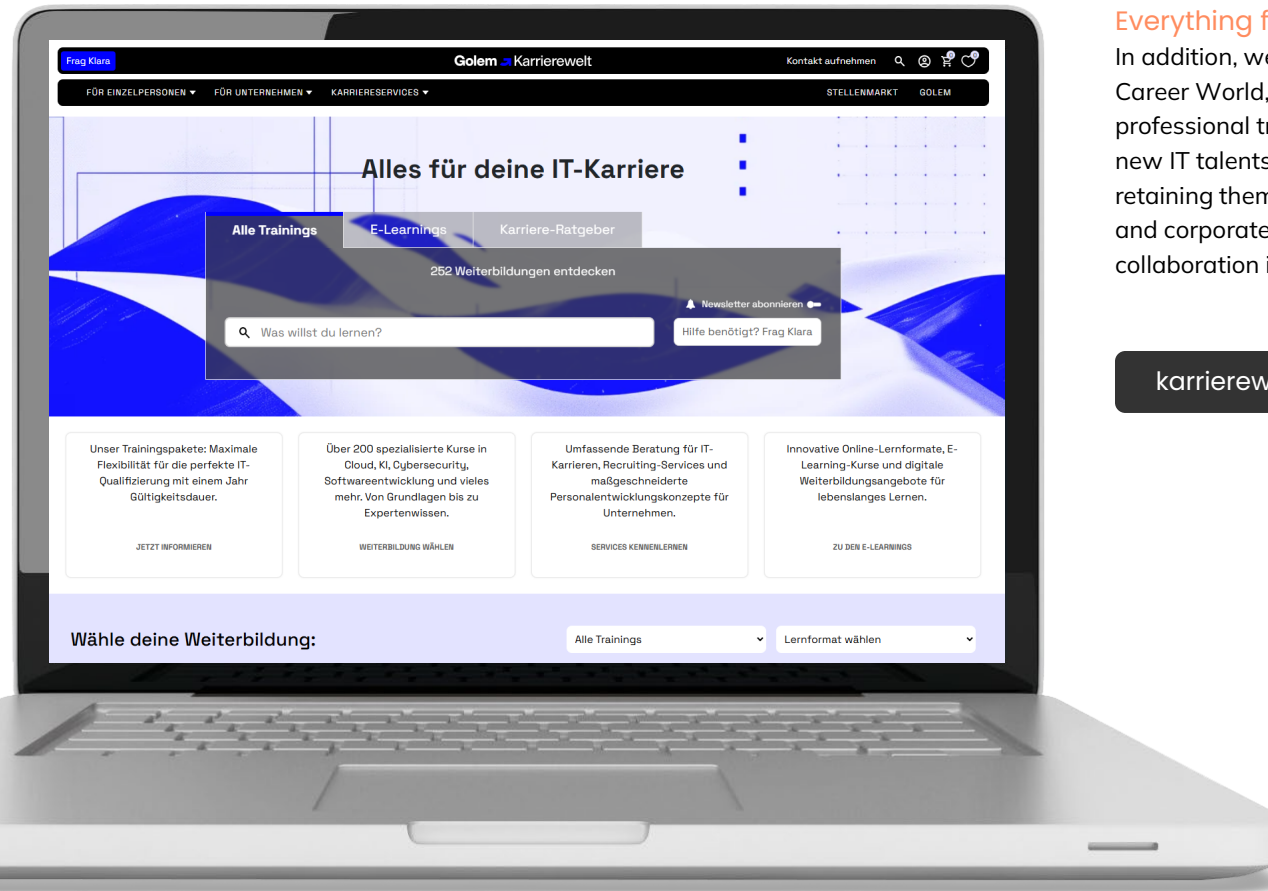

## IT news for professionals

Golem.de is a multimedia magazine that sets its own topics and follows the events in the IT industry. It is a medium for those who are the first to understand and apply technology, the early adopters. Golem.de is aimed at decision-makers, influencers, and opinion leaders who are IT experts in their professional and personal environments.

[www.golem.de](https://www.golem.de)

# Golem Karrierewelt

## Everything for your IT career

In addition, we provide assistance to IT professionals for their IT careers. In the Golem Career World, we deliver career-relevant and industry-specific topics for a successful professional trajectory all in one place. Simultaneously, we support companies in finding new IT talents, providing personal and professional development opportunities, and retaining them within the organization. We act as bridge builders between the IT world and corporate goals, helping to translate the language of IT and enabling successful collaboration in intercultural teams.

# Linux Magazin

## The magazine for Linux in professional use

The flagship among Linux publications is published monthly and has been providing independent and qualified information since 1994. It specifically targets administrators and developers in companies, covering a wide range of topics from software and hardware to networking, administration, development, and training offerings. The focus is on the enterprise use of Linux and the associated challenges.

## The German special-interest portal for Linux and open-source software

Linux Magazin Online is the internet portal of the world's oldest and most renowned Linux publication. In addition to providing diverse information on technological, political and societal aspects of free software in general and Linux in particular, it offers up-to-date news from the world of IT.

[www.linux-magazin.de](http://www.linux-magazin.de)

# LinuxUser

## The Power User magazine for users in their daily dealings with Linux

LinuxUser is the media label for daily Linux use, offering practical articles, workshops, and reviews. As a practical media brand, LinuxUser primarily features solution-oriented, workshop-style articles. Additionally, software reviews, hardware tests, and essential editorials provide the latest information on products and foundational technical knowledge.

## Always up-to-date information

The Linux Community is the central hub for all Linux enthusiasts who want to stay informed on a daily basis about all topics related to open source quickly and comprehensively, while valuing the quality and reliability of the content. Whether it's questions about a specific program or the installation of a Linux system, the Linux Community is always the appropriate platform to turn to.

[www.linux-community.de](http://www.linux-community.de)

# Raspberry Pi Geek

## The solution oriented magazine for the single-board computer

Comprehensive descriptions of the Raspberry Pi and available operating systems guide interested users step-by-step through the components, configuration, and possible applications of the single-board computer. The detailed presentation of clever hacks also provides ideas for personal projects. Practical tests of additional hardware, peripherals and related SBCs showcase the diverse expansion possibilities.

## The magazine for SBC and IoT enthusiasts

Raspberry Pi Geek is the solution-oriented magazine focused on the Raspberry Pi and other popular SBCs such as Arduino, BeagleBoard and Odroid. The website Raspberry-Pi-Geek.de serves as a landing page for the current issue, providing an initial overview of the magazine's contents. Additionally, it serves as a gateway to the complete archive of all previously published issues and allows quick access to freely available articles in HTML format.
